

A new life

On August 15th 2001, I was witness to a miracle that I will never in my life forget. My mother was taken ill very suddenly, suffering from some cardiac problems. While I was with her in the hospital, I phoned Swami and told him about the current situation. As I was speaking to him, the doctors were trying to start my mother's heart with electric shocks. Swami was very upset saying that she was like his own mother and to tell her that he was coming to see her and that she should wait for him. The next day, he arrived at the hospital and went directly to see my mother. She had been unconscious since the previous night. When Swami came and stood by her bedside she opened her eyes and said to him, "It is you. You came and saw me yesterday!" Swami reassured her saying that she should not worry and that she would soon be cured. Her health gradually got better but then after a week she became seriously ill again and all her vital organs stopped functioning. The doctors even told us that she would be taking her final breath any day now. While she was unconscious she saw St Antonio of Padua and Lord Ganesha. The next day all her organs started functioning normally again. The doctors pronounced it a miracle! During her recovery she noticed that she had acquired a large cyst which was causing her a lot of pain. She asked Swami if he could help her and he said, "Don't worry, it will disappear." That night, while she was sleeping she felt a hand touching the cyst and trying to remove it. She woke up at this point feeling extreme pain, as if someone had cut out the cyst. She fell asleep once more and on awaking the next morning she found that the cyst had completely vanished!

A quick healing

In the year 2000, I had a sty in my eye and thus underwent a minor operation to remove it. When I arrived back home with my eye bandaged, Swami asked me to remove the bandage. I did as he asked and was amazed to find that there was no mark of an incision anywhere to be found. I had got two weeks off work for to have this operation, and was thus delighted to spend all this time with Swami!

I once had a back problem and was unable to sit or even stand properly. Swamiji simply stood on my toes and in a second I was healed and no longer felt any pain in my back.

The sciatic problem of dad

During the year 2001 my dad had a sciatic problem and had to stay in bed. Swami was in the country as my elder sister's wedding was to take place during that time. Swami took some oil and massaged my father's whole leg and soon he was able to walk again. Since then my dad has had no further trouble with his leg.
